DETAILED ACTION

Response to Amendment

This Office Action is in response to applicant's Request for Continued Examination filed January 25, 2007 and the telephone interview on February 2, 2007. The claim objection to claim 15 is withdrawn in view of applicant's amendment.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jung-hua Kuo on February 2, 2007.

The application has been amended as follows:

Claim 1, line 8: Between "cutting loop being" and "generally within", insert – generally parallel to the probe axis and –.

Election/Restrictions

Independent claims 1 and 23 are now in condition for allowance. Therefore, the election requirement has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is**

Art Unit: 3739

hereby withdrawn as to any claim that requires all the limitations of an allowable claim. Claims 2-3, 5, 9-10, 12-14, 19, and 28-31 are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1-21 and 23-33 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art does not disclose or suggest a tissue cutting device with a cutting loop that is generally parallel to the probe axis and generally disposed outside the probe when in a penetrating configuration as claimed. Burbank discloses a cutting loop that is generally disposed outside the probe when in a penetrating configuration (Fig. 17), but the loop of Burbank is not generally parallel to the probe axis when in a penetrating configuration.

Art Unit: 3739

Regarding independent claim 23, the prior art does not disclose or suggest a tissue cutting device with a cutting loop that is generally parallel to the probe axis and generally disposed outside the probe when in a penetrating configuration and that the cutting loop is in contact with soft tissue during the releasing of the loop as claimed. Dulebohn discloses a cutting loop that is generally parallel to the probe axis in a penetrating configuration, but the loop of Dulebohn is not generally disposed outside the probe when in a penetrating configuration, and the loop is not in contact with soft tissue during the releasing of the loop as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alex B. Toy whose telephone number is (571) 272-1953. The examiner can normally be reached on Monday through Friday, 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda C.M. Dvorak can be reached on (571) 272-4764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
